Sole On-Site IT Support - Coimbatore Branch • **100% Workstation Uptime Maintained** • **4-Month Vendor Dispute Resolved** • **Company-Wide Policies Authored**

PROFESSIONAL SUMMARY

ISO/IEC 20000 Certified IT Support professional experienced diagnosing and resolving hardware, software, and connectivity issues, including Layer 1-3 troubleshooting (DNS/DHCP, IP conflicts) and proactive network health checks, as the first point of contact for end-user technical issues in person and via call/chat coordination. Skilled in infrastructure monitoring, incident documentation, SLA-driven resolution, device setup and configuration, IT asset and license record-keeping, and vendor coordination, with a solid grasp of hardware, software, networks, and OS fundamentals. Known for clear, patient, step-by-step user guidance, strong root-cause problem-solving, and a proactive, quick-learning approach - complemented by a working knowledge of cybersecurity awareness practices.

TECHNICAL SKILLS

- ✓ Multi-Channel Helpdesk Support (Call/Chat/In-Person)
- ✓ Hardware Setup, Configuration & Repair
- ✓ Network & Connectivity Troubleshooting (DNS/DHCP, Layer 1-3)
- ✓ IT Asset & License Management
- ✓ System Maintenance & OS Updates
- ✓ Technical Documentation & Policy Compliance

PROFESSIONAL EXPERIENCE

J&J Global Sourcing LLP

IT Hardware & Support

April 2026 - Present

- Act as the primary on-site point of contact for the Coimbatore branch, resolving hardware, software, and connectivity issues in person and via call/chat coordination with Regional and Head Office teams.
- Troubleshoot everyday hardware and software issues (displays, peripherals, Wi-Fi and connectivity, account access), running proactive network checks **twice daily** and providing clear, step-by-step guidance to end users.
- Set up and configure laptops and peripherals for users, issuing temporary backup devices during escalated repairs to minimize downtime.
- Perform routine maintenance - monthly laptop health checks, battery diagnostics, OS updates, cache clearing - and maintain accurate IT asset records under a company-wide Hardware Movement Policy, ensuring **100% hardware readiness**.
- Resolved a **4-month** outstanding vendor dispute through root-cause investigation and SLA follow-up, securing a pending credit note and restoring frozen invoice records.
- Authored VC Room cable and charging standardization guidelines, eliminating recurring AV breakdowns and technical setup delays before meetings.
- Support organizational cybersecurity awareness through periodic associate training sessions, contributing to a stronger overall security posture.
- Draft technical documentation and IT asset/security policies for company-wide deployment, and support senior IT staff on wider compliance initiatives.

Independent

IT Support

June 2023 - December 2025

- Managed the full lifecycle of Windows environments (OS deployment, driver sync, troubleshooting), maintaining **100% workstation uptime**.
- Maintained shared network resources; diagnosed and remediated Layer 1-3 connectivity issues including DNS flushing and IP conflicts.

ACADEMIC BACKGROUND

Bachelor of Computer Science - Cyber Security | Sri Ramakrishna College of Arts & Science 2023 - 2026
Higher Secondary Education | Motherlaand Matriculation Higher Secondary School 2022 - 2023

CERTIFICATIONS
